2 Highway, Street, and Bridge Construction

Construction, maintenance, or repair of highways, streets, bridges, and all related work, including general earthwork and general paving such as sidewalks, driveways, and parking lots.

Introduction

Highway, Street and Bridge Construction is a closed book examination with 100 multiple-choice questions which are equally weighted. You will have **four hours** to complete this examination.

This bulletin contains only a sample of the many good references available which may be helpful in studying for the examination. This is not a comprehensive listing. Please note that it is not necessary to read all of the books in order to pass the examination. Rather, this list is intended to suggest what types of books might be useful in helping to acquire the basic knowledge needed to perform this type of work. We try to keep this list current with books in print, but some books go out of print from time to time. These books may be available in your local library's collection or through your local library by using the services of Inter-Library Loan.

If still in print, these books may also be available through your local bookstore or by contacting the publisher. All references available via the internet are followed by the appropriate website address for obtaining the reference. From time to time, website addresses may change and no longer be available. In such cases, please search for the appropriate new website address or contact the publisher or a library to obtain a copy.

Content Outline

Content Domain	%
Construction Layout	6
Clearing, Grubbing, and Demolition	6
Drainage	8
Earthwork	12
Bridges and Structures	17
Soil Treatments and Base Courses	12
Concrete Pavement	12
Asphalt Pavement	12
Incidental Construction	7
Lights, Signs, Barricades, Traffic Control, and Safety Devices	8
